FWP

05 GT

With its compact design as a table-top machine, the single-column FWP 05 is ideal for laboratory use and for tests with small forces. The determination of the maximum force of a granulate in a compression test is tested. The FWP 05 GT is available as a stand-alone version or including a PC with pre-installed "Test & Motion Plus" software, which can be expanded with additional plug-ins/add-ons for, for example, individual test regulations (norms) and user programs. Additional test mandrels and a base frame are also available.

Scan for a workaround video on YouTube.

Model	FWP 05 GT
Power supply	400 VA; 230 V / 50 Hz
Maximum testing speed	500 mm / min
Maximum pressure force	0,5 kN
Traverse resolution	≤ 0,001 mm
Traverse lift	600 mm
Test room without force transducer and clamping equipment (width x height)	110 x 600 mm
width	200 mm
depth	460 mm
height	820 mm
weight	ca. 40 kg
switch cabinet	
width	350 mm
depth	500 mm
height	570 mm
weight	ca. 15 kg
